

## TxDOT's Federal Comments / Exceptions Process for the 2019-2022 STIP and Subsequent STIP Revisions

<sup>1</sup> It is strongly recommended that as many exceptions as possible are addressed within a single response.

<sup>2</sup> It is important to keep TPP updated on all responses, as this allows TPP to track and follow project(s) approval status

<sup>3</sup> Repeat, as necessary.

<sup>4</sup> If further clarifying information is needed, FHWA / FTA can coordinate with the District / MPO
