# Unified Transportation Program (UTP)

## Activities

- Data
  - Access Data Analysis/Processing
  - Database Development
  - Data Visualization (Dashboards)
  - Portfolio Milestone updates
  - Messaging
- Performance-Based Planning Process
  - Pre-Alignment Meetings
  - Quarterly Review Process (QRP)
- Tools
  - Risk Analysis Tool
  - UTP Historical Allocation Tool

## Activities

- PM-DIS
  - Reviewing Calculations
  - Review User-Guide
  - Help Explain Calculations in Layman's Terms
- Tools
  - Review/Test Visualization Tool
  - Conceptualize Validation Tool

### About PM-DIS

Performance Metrics: Data Integration System was developed for the Texas Department of Transportation by Alliance Transportation for complex data integration and processing, for direct integration with Decision Lens' tools and services.

PM-DIS combines data from a number of primary data systems of record and processes them for use in priorities ranking. The goal is to give users the ability to easily perform the complex data operations involved in using disparate data sources, formats, and linear referencing systems. All these operations are provided in a self-service format here.

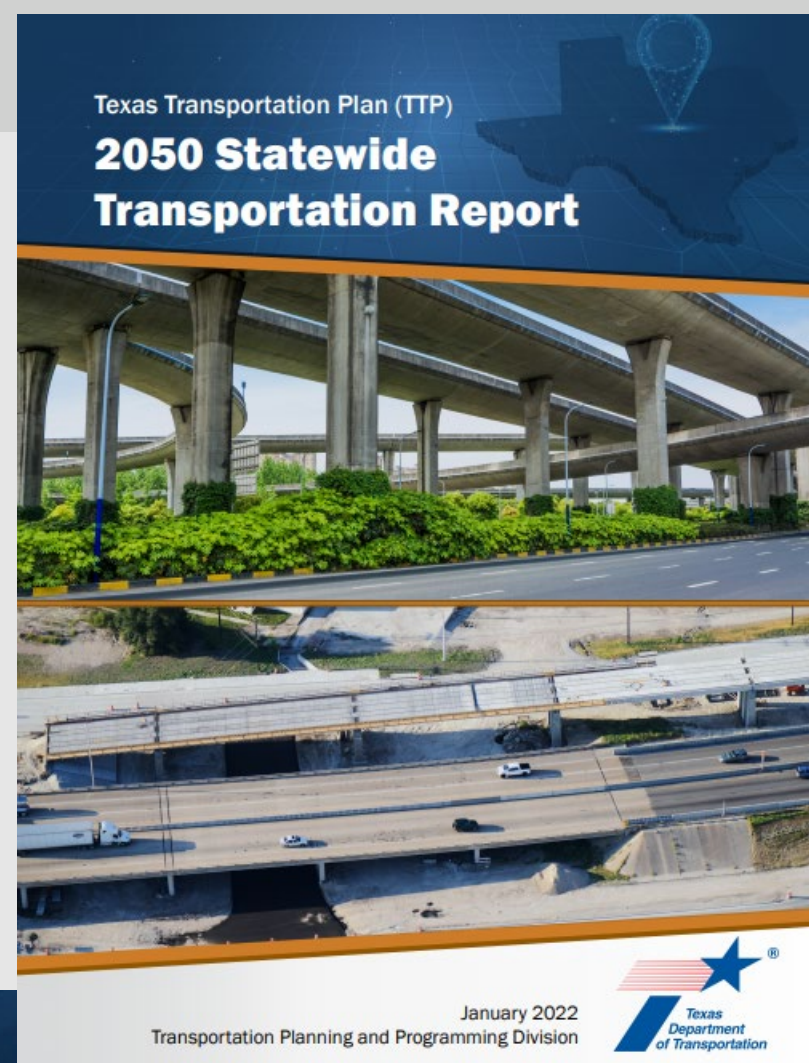

General information and links about using PM-DIS and Decision Lens may be found on the Decision Lens University TxDOT information site here: <https://dlu.decisionlens.com/txdot>

# Other

## Activities

- Legislative Reports
  - Annual Performance Achievement Report (APAR)
  - 2050 Statewide Transportation Report (Annual Report)
- Resiliency
  - Data Inventory
  - Tools Inventory
  - Studies Inventory
- Special Requests
  - Virtual Public Involvement (VPI)

## STIP Dashboards

- Nine dashboards
- Statewide Transportation Improvement Program dashboards (txdot.gov)
- Data can be filtered by district/MPO, fiscal year, and by category of funding
- Variance Reports created to show differences in STIP data and TxDOT project information data
- Help information on website:

 [STIP Dashboards Job Aid](#)

### Contact Us

Contact [TPP\\_STIP@txdot.gov](mailto:TPP_STIP@txdot.gov) for questions about data in this dashboard.
